PRIYANSHU KUMAR SRIVASTAV

+91 6307858366 | priyanshpriyansh34@gmail.com | LinkedIn Profile

PROFILE

Electronics and Communication Engineering student with strong interest in Embedded Systems, IoT, and Digital Design. Experienced in developing microcontroller-based systems using Embedded C, Arduino, STM32, and Raspberry Pi. Skilled in hardware-software integration, sensor interfacing, and firmware development.

TECHNICAL SKILLS

Programming: C, C++, Embedded C, Python
Embedded Systems: Arduino UNO, STM32, ESP32, Raspberry Pi, Sensor Interfacing, IoT Systems, Infineon Programmer
Tools: Proteus, EasyEDA, Arduino IDE, VS Code, STM32CubeIDE, Infineon iMotion Link, Git, FreeRTOS
Concepts: Microcontrollers, UART, SPI, I2C Communication, Digital Logic Design, PCB Design Basics, Testing, Debugging

WORK EXPERIENCE

Embedded Systems Intern - Virtual Forest Private Limited
- Developed embedded applications using microcontrollers and Embedded C.
- Implemented sensor interfacing and hardware-software integration.
- Assisted in debugging firmware and validating embedded prototypes.
- Worked on IoT-based embedded solutions for real-time monitoring systems.

PROJECTS

Infineon Gang Programmer Development
- Developed a Gang Programmer system to flash multiple Infineon microcontrollers simultaneously.
- Built using Raspberry Pi and Infineon iMotion Link for Outdoor AC and Portable AC unit controllers.
- Integrated support for two different Infineon microcontrollers through a single unified setup.

Dynamic Programming System for Outdoor and Portable AC Units
- Developed a dynamic embedded programming system using Raspberry Pi and Infineon iMotion Link.

PID Based DC Motor Speed Control using STM32
- Designed closed-loop DC motor control using STM32, PWM, and optical encoder feedback.

EDUCATION & LEADERSHIP

Mahatma Jyotiba Phule Rohilkhand University, Bareilly - B.Tech (ECE) (2022 - 2026)
Pawanagar Mahaveer Inter College, Kushinagar - Intermediate (2021 - 2022)
President - Embedronics Club: Organized workshops on Embedded Systems and IoT; mentored students.
